

REMARKS

In the Office Action of October 5, 2005, the Examiner rejected claims 1, 2, 4, 5, 9, 16 and 17 under 35 U.S.C. §102(b) as being anticipated by U.S. Patent No. 3,127,147 to Spangenberg. The Examiner also objected to claim 4, noting the absence of antecedent basis for the term "the head". Finally, the Examiner indicated that dependent claims 3, 6-8, 10-15 and 18-20 would be allowable if rewritten independent form.

Applicant has amended claim 4 so that it now depends from claim 2. Claim 2 does reference "the head" of the hanger wire. Therefore, Applicant has addressed the antecedent basis objection.

Claim 1 has been amended to include the disclosure of claim 6. Further, claim 6 has been canceled and claim 7 has been amended so that it now depends from claim 1.

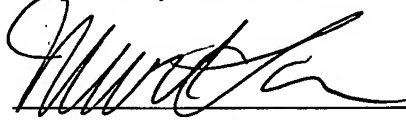

Claim 16 has been amended to include part of the disclosure of claim 17. Therefore, claim 16 now also recites that the anchor includes an opening, a clip mounted to the hanger wire and a hanger hook mounted to the clip. Such elements are not shown or described by Spangenberg.

Claim 20 was originally presented in independent form. Furthermore, new claim 21 is a combination of originally submitted claims 1 and 3.

Additional amendments have been made to claims 2, 3, 10 and 15 to correct typographical errors.

Therefore, in view of the amendments and remarks, Applicant submits that claims 1-5, 7-16 and 18-21 are now properly allowable. Such action is respectfully requested.

Respectfully submitted,
